Dear Fail,

Your peace sticker confused your post office, as you can see. Or, warmakers control it. They cancelled that stemp.

A break in the weather let me get outside for a little work today. My body's reaction tells me how it is raging! But it felt good, and I look forward to more, with pleasure and benefit.

While I feel somewhat better about the medical checking, I still regard. it as insdequate and, were it possible, I would accept your offer of the disanostician.

With Thornley I believe it is a pejury charge. Bowing and nothing to do with it I so not femiliar with it, knowing only what I recall of naving read in the papers. I believe the prosent delay is because he does not have counsel, not regular trial counsel. He had someone make some motions for him, and I suppose hearing them will delay it. I know the Garrison office is not disposed to press him when he hasn't counsel. I elso understand he expected the ACLU to take the case but they see no issue for them in it.

But none of this is of my own knowledge. It can be wrong. It is merely what I've coard.

The change in the weather makes me think of vecations, nice things other people have. If you do and you came east on yours, I hope it can include stopping here. We have accompdations, a quiet place, a pool sand werd like it.

Agein, thanks.
